GEORGE GAMEL RAMZY

IT Manager | IT Infrastructure & Network Administration

39 Al Bahyra St., Kafr El-Gazar, Benha, Al Qalubia, Egypt | 01222615420 / 01227668666 | georgegamelr@gmail.com

PROFESSIONAL SUMMARY

IT Manager and Infrastructure leader with 20+ years of progressive experience in IT infrastructure planning, network administration, virtualization, and multi-site systems management. Proven track record designing and delivering complete IT infrastructure for factory, hospitality, retail, and corporate environments, including full site-to-site connectivity, disaster recovery, and enterprise virtualization on VMware ESXi. Experienced in leading IT setup for new business openings (5-star hotels, 12+ restaurant branches), managing vendor relationships, and directing cross-functional technical teams. Combines deep hands-on expertise in Windows Server, Cisco networking (CCNA), backup and storage systems (Veeam) with hands-on AI and automation skills — building n8n workflows and AI Agents, applying Generative AI tools, and using AI-assisted coding ("vibe coding") to modernize IT operations. Authored and presented a proposal for a dedicated AI Automation Department to automate company-wide processes, and built a working AI Agents proof of concept to support it.

AI & AUTOMATION

- n8n Workflow Automation — designed and deployed working automation workflows with n8n to connect systems and streamline IT/operational tasks
- AI Agents — designed and built AI Agents, deployed and demonstrated on a personal VPS as a proof of concept for a company-wide automation proposal
- Departmental AI Automation Strategy — authored and presented a proposal for a dedicated AI Automation Department to automate processes across all company departments and branches
- Generative AI Tools — hands-on use of ChatGPT and Claude for prompt engineering and AI-assisted IT operations
- AI-Assisted Coding ("Vibe Coding") — building scripts and small tools with AI coding assistants (Claude, ChatGPT, Copilot) to speed up automation and problem-solving
- Applies AI tools and automation solutions to optimize IT workflows and enhance operational efficiency

CORE COMPETENCIES

- IT Infrastructure Planning & Management
- Team Leadership & Cross-functional Coordination
- Windows Server Administration (2016)
- Disaster Recovery & Backup (Veeam)
- Storage Management
- Vendor & New-Site IT Rollouts
- n8n Workflow Automation
- AI-Assisted Coding (Vibe Coding)
- Microsoft Office Suite
- Network Administration (LAN/WAN)
- VMware ESXi Virtualization
- Cisco Routers & Switches (CCNA)
- Multi-Site Infrastructure Design
- Network Penetration Testing & Security
- Surveillance Systems (DVR/IP Cameras)
- AI Agents Design & Deployment
- Generative AI Tools (ChatGPT, Claude)

PROFESSIONAL EXPERIENCE

LAN Administrator — Consolidated Contractors Company (CCC) *Jan 2025 – Jun 2026*

- Led full IT operations for the Mountain View iCity project — procurement and PO management, vendor and maintenance-contractor coordination, daily/monthly backups, and user access administration — while supervising a 3-person IT team
- Subsequently assigned to support IT operations for a new project in Ras El Hekma
- Installed and managed LAN connections and configured AutoCAD and ZWcad environments for engineering teams across company sites

- Managed storage solutions and backup systems; installed, configured, monitored, and troubleshot PCs and hardware across all OS platforms
- Authored and presented a proposal for a dedicated AI Automation Department to CCC's IT Director for Egypt, Middle East & South Africa, targeting major gains in performance speed, accuracy, cost reduction, and reporting quality to support management decision-making
- Built and deployed an approved prototype of 17 AI Agents (Orchestrator, Core, Support, and Analysis agents) capable of managing a full project's workflow — accelerating decision-making and protecting subcontractor cash flow
- Built and deployed n8n automation workflows to streamline IT operations and improve team productivity

IT Administrator / IT Responsible — MESH & Vision Group *Feb 2024 – Jan 2025*

- Managed IT infrastructure and network operations across two sister companies — MESH (Electromechanical & HVAC Contracting) and Vision (Engineering Consultancy)
- Provided unified IT support, systems administration, and hardware/software troubleshooting for both entities
- Installed, configured, and maintained LAN connectivity, PCs, and office IT equipment across both companies' operations
- Managed data backups and user account administration for both companies

Satellite Broadcasting Official — AL Karma TV *Aug 2023 – Jan 2024*

- Planned and coordinated broadcast programs on satellite channels
- Ensured broadcast content quality and alignment with channel programming schedules
- Monitored live broadcasts and resolved technical issues in real time
- Coordinated with presenters, directors, and technicians to maintain smooth workflow

Senior System Administrator — EEC Group *May 2022 – Jul 2023*

- Installed and managed VMware ESXi hypervisor environments
- Configured and maintained VMware virtual machines
- Managed storage infrastructure and backup systems
- Installed, configured, monitored, and troubleshot PCs and hardware across all OS platforms

Senior System Administrator — El Shark for Ceramic (Gloria) *Jan 2010 – Feb 2021 (11 years)*

- Planned and designed full IT infrastructure for factory and exhibition sites
- Installed and managed VMware ESXi and virtual machine environments
- Established site-to-site connectivity between the Bani Suwayf factory and Nasr City HQ
- Managed storage, backup, and disaster recovery using Veeam Backup
- Installed and maintained wired and wireless network systems across all sites

IT Manager / PC Specialist — Regens for Tourist Investment *Jul 2009 – Jan 2011*

- Managed IT setup for new openings in 5-star hotels
- Installed wired and wireless network systems
- Monitored and troubleshot WAN connections; installed and configured routers and switches
- Generated weekly IT status reports

PC Specialist / Support Technician — Batmos Trade for Security Systems & Fire Fighting *Nov 2006 – Jul 2009*

- Installed wired and wireless network systems
- Installed surveillance security cameras (DVR and IP Camera)
- Monitored and troubleshot LAN connections; configured routers and switches
- Generated weekly network status reports

PC Specialist / Support Technician — I.R.G. International Restaurant Group *Oct 2004 – Oct 2008*

- Led opening teams for 12+ new restaurant branches across Cairo and Alexandria
- Provided technical support for Restaurant Manager POS software
- Installed and configured systems using imaging software
- Troubleshot hardware and software issues including desktops, laptops, WAN/LAN, and remote systems

- Configured and monitored routers and switches; generated weekly reports

EDUCATION

Bachelor's Degree – Banking & Stock Exchange (Commerce)
Benha University (Open Learning)

Diploma in Law — 1999
CCNA – Cisco Certified Network Associate
Ministry of Defense, Information Systems Institute

CERTIFICATIONS & TRAINING

- Gen AI: Beyond the Chatbot — Google Cloud, via Coursera (Mar 2026)
- AI for Brainstorming and Planning — Google, via Coursera (Mar 2026)
- Network Penetration Testing (NPT) — Information Systems Security and Hacking Institute (Aug–Oct 2021, ID: 001BM033)
- Global Knowledge – Windows Server 2016 Track: M20740 Storage and Compute, M20741 Networking, M20742 Identity in Windows Server
- VMware Virtual Machines Administration
- CCNA – Cisco Certified Network Administration
- Project Management Systems & Digital Transformation Roadmap — Consolidated Contractors Group (Feb 2025)
- Fundamentals of Cost Control — Consolidated Contractors Group, PMI-authorized, 2 PDUs (Feb 2025)
- Quality Management Fundamentals: A Practical Guide for Construction Projects — Consolidated Contractors Group, PMI-authorized, 4 PDUs (Jan 2025)
- Introduction to ACONEX Document Control and Best Practice — Consolidated Contractors Group, PMI-authorized, 2 PDUs (Feb 2025)

LANGUAGES

- Arabic – Native (reading, writing, speaking)
- English – Good (reading, writing, speaking)

ADDITIONAL INFORMATION

- Own car and valid driver's license
- Military status: Exempted
- Marital status: Married
- Date of birth: 6 September 1981
- Nationality: Egyptian
